Dear Michael, Suzie and Team,

We're still not settled into our new home, although today it's exactly 2 weeks that you moved our household to Welland. We've made a good dent into the 250+ boxes and other details to get everything in order, but things look real good. We're happy already to have made this change.

Your excellent work, care, and attention to detail was simply fantastic. Not only were all the members of the moving crew very kind, helpful and thorough, they were all really nice guys! This must be a reflection of the environment you create for them, and reflects upon you as employers. You've been kind, honest, and so friendly and accommodating as well as most generous. Thanks also to Judy and Susan for such an excellent packing job!

If ever we have the chance, we'd be happy to recommend your services for anyone looking to relocate and to move. You've made the whole process so much less stressful.

Thanks to everyone, and just a little extra for the team!

Best wishes!
