Manager  
Morrison Moving  
130 Brockley Drive  
Hamilton, ON L8E 3C5

Dear Sir:

This letter is a little late in coming but have just now managed to get myself organized. I wanted to let you know about the professionalism of the four men who did my move from Unit 8, 232 Stonehenge Drive, Ancaster on March 20. They packed, disposed of items no longer needed and moved and set up the new place I was moving to. Nothing was broken or missing!! In fact, I have a grandfather clock that had not chimed in years and the fellow that handles the clocks set the clock up and it started chiming. Don't know what he did but I was so happy.

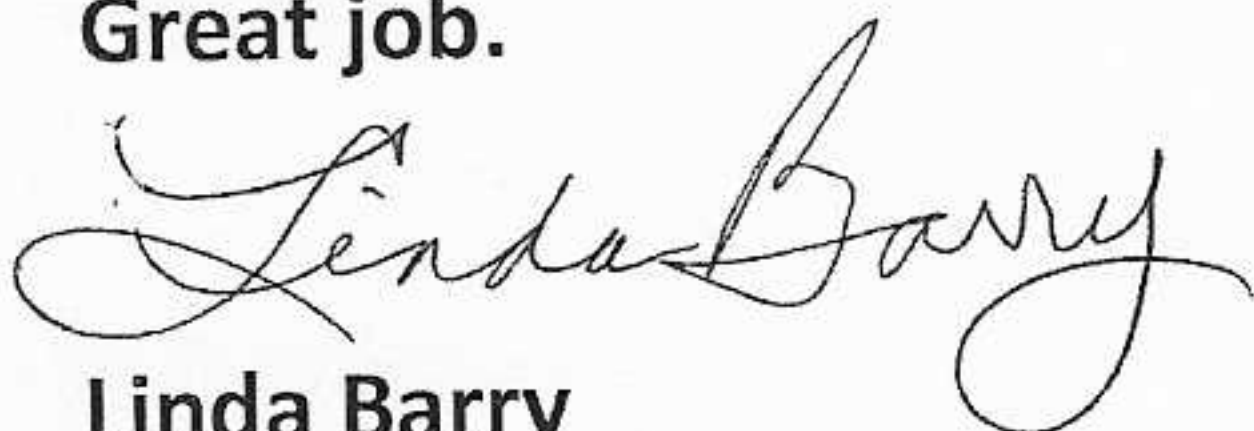

I have to say they were very nice and hard working. They never stopped. Ended up that there were some issues at the house with the buyer so that delayed the move a little causing the building manager to take the elevator off service at the new place. That caused a delay, but it was not the fault of the movers.

I would recommend your company to anyone who plans a move.

Shout out to:

- Tyler
- John R
- John A
- Nick A

Great job.

Linda Barry
