Subject: Our recent move to Waterdown

Hello,

We used Morrison Moving on our move from Burlington to Waterdown in early November.

We had a crew of three guys and they were fantastic. I meant to email earlier but with Christmas and moving into a new place we have been very busy. They guys were super fast and friendly. They talked to us about their lives and made us feel comfortable, and they were just really good guys.

They were extremely professional and knew which order to load and unload to make the move quick and efficient. We were given an estimate of almost eight hours and they were done in just over three.....so your guys are amazing and didn't waste a minute of time. I would like to ensure that they are acknowledged for how great they were and I would appreciate it if you could email me back to advise that you have let the guys know they were commended?
I cant remember the main guys name, but I know there was a young man named Cody on the crew.

Because of your guys, and only because of them, we will be recommending Morrison Moving to friends and will be using you again when we are move.

Merry Christmas!

Tara and Clayton Vervoorn
