Testimonial for Morrison Movers – COULDN'T HAVE BEEN EASIER! STELLAR JOB!

As a military family member, I am no stranger to moves (averaging one every other year) and I understand what makes one move easy and what makes one painful. I moved in June and due to conflicts in scheduling, I was unable to work with the highly recommended Morrison Movers. I went with another company and it did not go well. So poorly, in fact, I had to hire Morrison Movers in July to complete the move. Your company called to confirm my appointment, worked with me around my schedule (thank you), and most importantly arrived when you said you would. I can not tell you how nice it was to be given a time rather than 'between 8 and 10am' and still have the movers be late. Your staff made immediate introductions; were courteous, friendly and well groomed in their uniforms. It made for a very professional first impression. The truck was well equipped for anything that may come up and had all the tools needed for the job. Your employees came prepared for the day and ready to execute a plan. 'Know-how' at all things entailed with a move came through from your entire staff. They went above and beyond to ensure my satisfaction as a customer, including climbing around bushes and wrapping with extra protection my most valued possession. I was very satisfied with your service and will whole-heartedly be recommending to all to move with Morrison Movers. I couldn't be happier with the service.

Best Regards,
Teresa W.
