Hi Michael

We wanted to thank you and your crew for an outstanding move. They absolutely exceeded our expectations....John directed traffic and made sure not a single item was damaged....Alex took apart our furniture and put it back together quicker and sturdier than I did....he showed me what my extra parts were for...and Cody moved our items quickly and efficiently and all were very professional and had a great sense of humour. I really could go on and on....there was absolutely no damage or a single scratch...ironically they actually repaired some scratches left on our hardwood from the previous owners movers...we had a second crew join them to move our hot tub and they were just as professional polite and fast....I would definately use your company again...thanks again for an awesome move...
